

Green Labs Guide

Tulane University Office of Sustainability • green.tulane.edu

1

Shut the Sash!

Save energy while reducing risk of safety hazards

Don't Use Your Fume Hood as Storage!

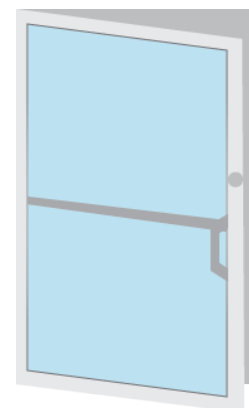

Allow air to flow efficiently and reduce chemical and electrical hazard risk

2

3

Keep Lab Doors Closed!

Ensure efficiency of ventilation systems while containing chemicals to designated spaces

Manage Waste Materials!

Keep labs free of clutter and manage materials responsibly!

Check in with Environmental Health and Safety and recycle.tulane.edu with questions
